Permission To Write Request

An applicant who has made **4 or more attempts on any bar examination**, excluding the patent registration exam, in any jurisdiction, in which the applicant sat for any portion of the exam**,** must request permission from the Committee on Examinations before sitting for a later Bar Exam. Permission to Write will be granted only if the Committee on Examinations determines that the applicant demonstrates a reasonable likelihood of passing the Bar Exam. To request Permission to Write, the applicant must submit with the Bar Exam application a statement including:

A. a list of any prior attempts, withdrawals, or failures to appear, including the jurisdiction, month and year, and the score for each attempt;
B. a list of all prior MPREs, if any, and the score for each MPRE;
C. a list of prior patent registration exams, if any, and the score for each exam;
D. a detailed description of how the applicant prepared for each attempt in the past;
E. a detailed description of how the applicant is preparing for the requested Bar Exam and how this preparation differs from the applicant's preparation for prior attempts;
F. a detailed description of why the applicant believes Permission to Write will result in a passing score; and
G. if applicable, a detailed description of other good cause or change in circumstances that the applicant believes is relevant to the Committee on Examinations' consideration.

An attempt is defined as any bar examination, from any jurisdiction, in which the applicant has viewed, accessed, or otherwise observed any portion of the exam content. *See* Ariz. R. Sup. Ct. 35(a) and Order R-26-0010.

The Committee on Examinations encourages you to include any supporting documentation (such as bar review course receipts, tutor receipts, approval for time off work, etc.) and may request additional information.

I _____ have read and understand the Rule
(Printed Name)

governing Permission to Write and attach hereto my statement for Permission to Write the

_____ Bar Exam.
